PROFILE

Passionate Full-Stack Developer with experience in Node.js, Express.js, MongoDB, PostgreSQL, React, and Next.js. Skilled in building secure and scalable web applications, designing RESTful APIs, and developing responsive, user-friendly front-end interfaces. Proficient in authentication, authorization, and state management, with a strong focus on clean, maintainable code and version control using Git. Experienced in agile teamwork, database optimization, and automated testing. Continuously learning system design, cloud deployment, and modern development best practices while showcasing problem-solving skills and technical depth through projects on GitHub

WORK EXPERIENCE

Frelancing   2024-Present
Full Stack Developer

- Designed and developed end-to-end web applications using modern front-end and back-end technologies.
- Integrated APIs, databases, and cloud services to deliver secure and scalable solutions.
- Collaborated with clients to gather requirements, deploy projects, and ensure ongoing support.

Yennu Creatives   2024-2025
Front end Developer

- Built and optimized responsive user interfaces for modern web applications.
- Collaborated with cross-functional teams to deliver high-quality, scalable solutions.
- Ensured performance, usability, and clean code through testing and best practices.

Yennu Creatives   2024-2025
Front end Developer

- Built and optimized responsive user interfaces for modern web applications.
- Collaborated with cross-functional teams to deliver high-quality, scalable solutions.
- Ensured performance, usability, and clean code through testing and best practices.
